In calling public attention to the subjoined list of the Sirja which comprise our Boston Line of Packets, we believe that its general reputation as the first of American Lines is sufficiently well known and established. The Thousands of Letters which have been sent by American Immigrants to their friends in errey part of Rompe, have borne ample testimony to the rapid and successful passages made by those Shirps, and to the superior Health, Comfort and Safety which their Passengers have hitborton enjoyed. Many of them will be recognized as reasels which have gained the royl pighest character, by a succession of unusual rapid reaseases.

Train & Co., No. 121 St. Patrick Street, Cork, Ireland. As Train & Co. are mide such arrangements in Liverpool as will PROTECT their friends from the trands and impositions sometimes practical there, they believe that those who pre-pay passages cannot but see the advantage of being able to engage with a Respectable House, on favorable terms, for a well known time of Magadeent Parket Ships, and in this way avoid the disrespect, annoyance and deky which they so other experience, when they on-gage with Agents who are but slightly connected with transient Ships.

As a proof that their Immigration business is conducted on principles uniformly Honorable and Humane, and that they have been distinguished for the most evant fulfilment of all their anguagements, we are permitted to refer to the very large TRECO ALD MATERY Cork, Ireland.

Mr. Seward's Speech.

We commenced on Saturlay, and conclude to-day, Senator Szward's great Speech just be-tuce the passage of the Nebraska Bill. We did Last ank any one to read it, nor do we now urge at j one to read it, being satisfied that the specime of no living American Statesman are tiad as carefully, or with as much pleasure and proxit as those of Mr. Seward. It was a fitting -mining up of the case of the People of the North to the Nebraska Bill; and though the sperity of the Court which tried the case was corrupt, and faithless, and cowardly,-bribed by promises of office, and threatened by a model "democratic" administration,-and thus rendered a corrupt verdict, yet the closing plen of the distinguished counsel for the people will be gratefully remembered by them.

Coming to their Seuses.

Now that the anti-Nebraska Journals can make without the anti-typicance owners can make between full, they are beginning to admit that makery can never go to the new Territories. As the ichies the only point of practical importance in the controverse, about which the masses care a fig. its admission is eignificant enough. The following from the two leading opposition journals in N. T. in Albary Journal and Buffalo Commercial, is a support of the property the Albany Journal and Buffalo Commercial, attractly in accordance with the views advocate with Morning News. Will the Sentinel copy

Wit the not see that any good end would be samed by a pying the speculations of the Jouror or Freedom ultimately possessing the new errandes, and we think our space much better securied by the admirable speech of Sanator Sawand, on the same general subject. At the same time, we have no hesitation in saying that our faith in the will and numbers of the great army of freemen marching west is such, that, in Nebrasis, we think that Slavery will not exist by con-=titutto; xl enactment; while in Kansas, hitherto secred to Feestdom, we think that the foul curse will have sway, as, indeed, why should it not, if at exists and flourishes in Missouri?

But what if, in the course of events, Slavery shall possess meither of these territories ? What ine Freedom gained by the stupendous frandthe violation of a sacred compact, entered into with schemic earnestness more than thirty years ago, between the North and South? Clearly nothing. And what has Slavery gained, through the aid of its northern hirelings? Why, it was, with all its unutterable miseries, and disgrace, and eins, hitherto, and by that compact, excluded from every foot of land which it does not now occopy; and by this bill, thus offered by doughfa. secepted by the chivalry of the South, and arred through by the whole strength of a democratic administration, History is at full liberty to d somesk the land and it takes a loc course of years to drive it out, even if a vote of the people, on forming a State Constitution, is against the system. This much has Slavery gained, while Freedom has gained nothing, but her its rantage ground.

but this is not the worst feature of the case. The socress of the Nebraska iniquity is but another in a long course of triumphs which the Slave power has won over the spirit of Freedom for these anany years past; and every successive victory ims strengthened Slavery and weakened Freedom till the former is now rampant, covers the whole central region of the continent with a permission to enter, looks longingly at Mexico, and demands that the whole power of the Union shall be exerted to give Cube to its embraces, before Spain shall free the Cuban slaves. And northern me and northern presses have voted for and supported all these advances of our country's curse and steame, and are ready still to help it forward to the bitter and i

Sentiment of the Democratic Press.

We know well-everybody knows that of the Fregle of Wisconsin, at least 95 out of every 100 are opposed, entirely and absolutely, to the Nobrasks iniquity. Those who favor it all go by the name of "democrats," to be sure, but they nee a very email minority of that party in our State. We have taken pleasure, hitherto, in publishing from time to time extracts from bold, mostly articles from democratic papers, protesting against the bill referred to, because we know well that they redected the sentiments of the people. Hitherto, we have been under the impression that - large majority of the papers in this State calling "Lemelves "democratic" were opposed to the ell, but our cotemporary of the Morning News which deserves and receives the patronage o the coministration for its absolute obedienc to all, even the worst of its commands, now pubn-her a list of thirteen papers of its kind in Wisconsist. We did not think that there could be so many found in this State to defend the outrage, that willingly make the statement, so that the truth of history may be vindicated, and the 'fregular demouracy" of Wisconsin derive all possible Garage and giory from its subserviency to Slavery

Position of the Whigs on the Nebraska

The Beloit Journal has the following truthful and timely remarks relative to the whig vote in Congress on the Nebraska iniquity :

The Whig vote upon this Nobraska Bill has treed the party from any imputation of doughterists. The ghost of the Baltimore platform need be invoked no more to frighten Whigs; they not trumphantly point to the action of their representatives in Congress. Actions speak louder than professions in politics, as well as in every thing else. The inquiry has of late frequently there professions in politics, as well as in every thing else. The inquiry has of late frequently been made in certain circles, "Whore is the Whignestien. It has been found, although in a fear-ful minority, faithfully upholding the best interests of this Republic, and using its atmost encarage to stay the course of that reckiess legislation and to save the country from that consecuent. tion, and to save the country from that consequent political anarchy to which popular democracy is

Mr. Seward's Speech IN THE FINAL DEBATE ON THE

Delivered in the U.S. Senate at Midnight, THURSDAY, MAY 25th, 1854.

There are advocates of this bill equally earnest who do not expect and who, I suppose, do not desire that Slavery, shall gain possession of Nobraska. What do they expect to gain? The honorable Senator from Indiana (Mr.Pettit), says that the periodic of the striction they will gain a tabula rasa on which the inhabitants of Kansas and Nobraska may write whatever they will gain is the great of the bill, as he understood it. Well, principle of the bill, as he understood it. Well, principle of the bill, as he understood it. Well, principle of the bill, as he understood it. Well, principle of the bill, as he understood it. Well, the state of the state o (DONCLUDED.) the privilege of establishing flectrous of mean-selves. They have now the privilege of estab-lishing free institutions. Is it a privilege, then, to establish Slavery? If so, what a mockery are all-our Constitutions which prevent the inha-bitance from enpriciously subverting free institu-

removal of the constitutions of constitutions of elavery or freedom when they already have them, and the removal of constitutions of slavery, when they have them, that they may establish constitutions of freedom in their place. We hold on tutions of freedom in their place. We hold on tenaciously to all existing constitutions of freedom. Who denounces any man for dilligently adhering to such constitutions? Who would dare to denounce any one for any dislayalty to our existing constitutions, if they were constitutions of despotism and slavery? But it is supposed by some that the application of this principle is less important to Kansas and Nebraska than as a general principle applicable to all other present and future Territories of the United States. Do honorable Senators then indeed suppose they Beware of Irresponsible Banks.

Messrs. Editors:—Will you please call the attention of the public to the large amount of wild-cat and irresponsible currency, which is now being put in circulation, by different parties in this State. We are having a repetition of what occurred here about two years since; as at that time, our city and State was filled with a species of

our city and State was filled with a species of currency, purporting to be issued at Washington, D. C., and which was foisted upon the farmers and merchants, by saying that it was redeemed by some of the "Bankors," and therefore must be good. How long was it redeemed? And how long will the trash that is now afloat be redeemed? A question that everybody should ask to whom it is offered, and be sure they got a reliable and responsible reply before they take it. The "Metropolitan Bank of Washington, D. C." of which, I redieed your paper copied a corresponthey are not strong enough to do it. They have the power in the House of Representatives greater than that of the slave States, and, when they choose to exercise it, a power greater even here in the Senate. I will tell you another thing the free States are not dull scholars, even in practical

contests, its because you are in perpetual fear.

There cannot be a convocation of Abolitionists, however impracticable, in Faneuil Hall or the Tabernacle, though it consists of men and women who have separated themselves from all effective political agencies, even though they resolve that they will yote for nobody, not even for themselves to save out their purposes, and though they preserved.

Paving with Limestone,

Is not the paving of streets or side-walks with limestone most injurious to the health of the more immediate residents where such paving is done?

Men of experience and science in this city have same, but there is no harm in calling to it the attention of those mostly interested, through the columns of a public newspaper.

Yours, truly,

ity on this subject into the hands of the people of the Teritories, you are only getting over a difficulty in settling this question in the organization of two new Territories by postponing it until they come here to be admitted as States, Slave or Free. Sir, in saying that your new principle will not be established by this bill, I reason from obvious, clear, wellsettled principles of human nature. Slavery and Freedom are antagonistical elements in this Government. The founders of the Constitution framed it with a knowledge of that antagonism, and suffered it to continue, that it night work its own way.

They have been at war with each other ever since the Government was established with the continue forces. lished, and that war is to continue forever. The contest, when it ripens between these two anta-gonistic elements, is to be settled somewhere; it is to be settled in the seat of central power in the Federal Legislature. The Constitution renders it the duty of Congress to determine questions, as often as they shall arise, in favor of one or the other party, and refers the decision of them to the majority of the votes in the two Houses of Con-

majority of the votes in the two mouses of congress. It will come back here, then, in spite of all the efforts to escape from it. This antagogonism must end either in a separation of the antanistic parties—the slave holding States and the free States—or, secondly, in the complete establishment of the influence of the slave power, over the free parties of the state pand it the state. isoment of the randence of and same power could be free—or else, on the other hand, in the establishment of the superior influences of Freedom over the interest of Slavery. passion or ambition. Either party will submit to the ascendency of the other rather than yield the commercial advantages of this Union.

Political ties bind the Union together—a common necessity, and not merely a common necessity, but the common interests of empire—of such empire as the world has never before seen. The central of this national power is the control of the great Western Continent, and the control of this Continent is to be in a very few years the controlling influence in the world. Who is there North that lates slavely se much, or who South that hates empreigation so intensely, that he can

ence I may have as to secure the utilimate predominance of freedom.

In doing this, I do no more than those who believe the slave power is rightest, wiscat, and best, are doing, and will continue to do, with my free consent, to establish its complete supremacy. If they shall succeed, I still shall be, as I have been, a loyal citizen. If we succeed, I know they will be loyal also, because it will be safest, wiseast and best for them to be so. The question is one tot of a day or of a year, but of many years, and, for y angle I know many generations. Like all other

of a day or of a year, but of many years, and, for anglit I know, many generations. Like all other great political questions, it will be attended sometimes by excitement, sometimes by passion, and sometimes perhaps, even by faction; but it is sure to be settled in a constitutional way, without any violent shock to society or to any of its great interests. It is, roreover, sure to be settled rightly; because it will be settled under the benign influence of republicanism and Obristianity, according to the principles of truth and justice and human reason. In pursuing such a course, it seems to me obviously as wise as it is necessary to save all existing laws and constitutions which to sare all existing laws and constitutions which are conserrative of freedom, and to permit as far as possible the establishment of no new ones in favor of slavery, and thus to turn away the thoughts of the States which tolerate slavery from political efforts to purpotuate what in its nature cannot be perpetual, to the more wise and benign

policy of emancipation.

This, in my humble judgment, is the simple, easy path of duty for the American statesman. I will not contemplate that other alternative—the greater ascendancy of the slave power. I believe that, if it ever should come, the voice of freedom will see to be beguing these alls whetever may always hald in reverence and respect even now who think as I do, that morely is securify at the degree that equality prevails, and that the security of the citizen requires complete responsibility on the part of the Government, and that decline and rule follow always in the train of slavery, this will be no longer a land of freedom but a

On this operation that believe ment been altogether faithless to the interests of the free Sintes; for although it has taken away the Charter of Freedom from Kansas and Nebraska, it has at the same time told this proud body, in it has at the same time told this proud body, in language which compels acquiescence, that in submitting the question of its restoration, it would submit it not merely to interested citizens, but to the suffrages of the alien inhabitants of the Territories also. So the great interests of humanity are after all, thanks to the House of Representatives, and thanks to God, submitted to the voice of human mature. Sir, I see one more sign of hope. The great support of slavery in the South has been its seliance with the Democratic party in the North.

ples of republicanism and free government. It is an extraordional circumstance, which you, sir, the present occupant of the Chair (Mr. Stratt.) I am sure will not gainsay, that at this moment, when there seems to be a more complete divergence of the Federal Covernment in favor of Slavery than eyer before, the sectiment of universal Liberty is stronger in all Free States than it ever was before. With that principle the present Democratic party must now come into a closer contest. Their prestige of Democracy is fast waning by reason of the hard service which their alliance with their slaveholding brethren imposed

they are brought, by supporting the interests of slave labor of the South in the new Territories since labler of the South in the new Territories is and States, that they are losing, and are destined to lose, by persecuring in that policy, the power which they have beld so firmly and so long. That power will not cone back to them again until the principle established here now shall be rayereed, and a Constitution shall be given, which not only to Kaness and Mobraska, but also to every other National Territory, will not be a tebula read, but a Constitution securing equal, universal and persecual Freedom. perpetual Freedom.

CLEANING THE CITY.—The work of cleaning the city is being carried on with a commendable degree of alacuty. Everywhere the Aldermen are bending their energy to the work, and with the most happy results. Many muisances of long existence are in process of abatement, and numerous others will be done away with as soon as they can be reached. The municipal authorities are determined that the health of our city shall not suffer, during the approaching bot weather, frem causes which can be obviated by their action.—Detroit Free Press. tion .- Detroit Free Press.

JUDGE RUBBELL PRESIDING. CONNAUGHTY CONVICTED.

Saturday, June 3rd. The jury in the case of the State vs. James Connaughly, for the murder of John Gidlen, June 15th, 1851, came into court at 1/2 past 8 A. M., having been out just twelve hours, and returned a verdict of " Guilty of Murder in the Third degree." The prisoner after making some remarks, protesting his innocence of having carried or assisted to carry the body of Gullen to the river but not alluding to the killing, was removed in custody of the officer, back to jail. No sentence was passed upon him at that time.

Thus this important case has been brought to close. The defendant has had, throughout his long incarceration in prison, and during two protracted trials, the advantage of abla counsel, who has stood by him unflinchingly, using every effort that the law would afford, and ingenuity suggest, to obtain his acquittal. First tried, convicted, and sentenced to death, then the sentence mitigated to imprisonment for life, then a new trial granted, the result of which we have given above, as his second conviction of the murder of a follow creature, a fellow countryman, an indus trious young man, an affectionate son, the last act of whose life, so far as the evidence shows him in connection with his aged father, a man of acknowledged respectability and good character was to have paid him from his earnings, a small was to have paid him from his earnings, a small sum of money to purchase provisions. John Gelman, Madison, Ek Wobb, LJ Fribert, Watertown; L General Control of Milwaukee city, in the prime of life; nothing shows that he had an enemy in the city, og elsewhere; he was traced to the house of McDonald; the pext heard of Gullen is that his McDonald; the next heard of Gullen is that his oody is drawn from the river. The whole public receives a slicek at the intelligence of a "Foul and Blondy Murder," not the murder of a man by one blow, but a succession of blows and cuts,

which must have taken some minut a to effect, The defendant was arrested from one of his own statements made without compulsion having excited the suspicion of the officers, and not until after McDonald and his wife had been arrested; has been tried twice, and twice convicted. The law has, in this instance, been apparently vindicated. The punishment under the statute is not less than seven nor more than fourteen years in the state prison. The prisoner throughout the trial appears to have been upathetic as to the result, sitting numoved, betraying but little emotion, until the rendition of the verdict, when he has came excited in a great degree, during his remarks upon the verdict.

The jury, on going out, on the first ballot stood eight for guilty in the 1st degree and four for acquittal, next nine to three, then a compromise was effected, and all agreed to the verdict as recorded. The case was conducted by the A. R. R. Betler Eqs. (District Attorney) and JONATHAN E. ARNOLD Esq., for the state, and JAMES A. MALLORY Esq. or defendant.

Connaughty was sentenced by the Judge to ten years imprisonment in the State prison.-Connaughty was about to reply, when he was between freedom and Stavery legitimately contained to be decided as they they ought to be upon their merits, by a fair exercise of legislative power, and not by bargains of equivocal prudence, if not of doubtful morality.

BADGES .- The men employed by Messrs Davis' Omnibus line, are all supplied with badges, worn in their hats, having on a black ground in gilt letters, "Davis' Ompibus Line." This is an excellent plan, as the public, particularly straners, can distinguish them at a distance. Will not the other lines adopt the same plan? If all the hotels would do this, it would prevent much trouble, and be convenient for passengers, in seecting the houses at which they wish to stop. For when there is a good deal of competition, sales being confined to the street parcels, which have been effected in greater quantity than for some time past. Farmers get almost windower they choose to sale, such is the disposition to belater up the market. We hear of \$2.80 and higher being raid in some cases. The true index of the market is sanarely to be found in these transactions. We quote \$2.23a.230, which we think should should bring out all the wheat remaining in first hands—Democrat.

THERE are several Tracts of Land and Lo's which are very desirable and well worth Jooking Jato. For instance, I would ca'l Join rattenion to the Lots in the Second Ward. The Lots which I am going to sell in that Ward are very beautiful, giving a fine view of the entire City and also of the Lake. The Second Ward property is certainly very desirable property and those who want to make Investments, I would advise to look Into property which is oftened for sale. In all the other, Ward at the property offered is far below its value, compared with other sides. There never was a time to invoke money to se good advantage as now In 12 months from now property in and around Milwankee will be worth double its present value, for by the time we shall have Five Railroads running itso the City, also we expect to have one connecting with a Ferry soross the Lake. Our city will and must with all the alwantages she has have in Ten Years Saventy-Five Thousand inhabitants.

I also would call your attention to toward Tracts of Land adjacent to the city, and also to several Farms within 4 or 6 miles of the city. The Terms of this Sale will be about one-third down, balance in 1, 2 and 3 years, Sale will commence at 10 o'clock.

VALUABLE FARM FOR SALE. ONE OF THE MOST DESIRABLE FARMS In the State of Wisconsin. In the State of Wisconsin.

I'll CONTANNS one hundred and forty-six acres, is well watered, rich fertile soil, provided with inoher and meatlow land, and is under a good state of cutativation. It is tituated between two of the main theoroughfaires leading out of Medison (the County Seat of Dane County, and the Capital of the State of Wisconsin!) one and a said miles from the State House, and one haif mile from the State University. The location is on an elevated plain, giving an excellent view of the Town, "Third" and "Fourth Lake" and the high rolling Farles, fifteen to twenty miles distant, making it one of the most desirable country seats in the whole Western States. Its proximity to the Capital will make it a convenient residence for one doing business in the city or to use for agricultural purposes alone, and the all one to tuse for agricultural purposes alone, and the an investment will result in great pseumiary advantage.—The firm is known in and about Madison as the "Gorum Varne". A large part of the purchase money may remain on Bond and Mortegoo for a term of years. Any coquiries by mail respecting the above farm will be promptly answered.

TAKES PLACE.

THERE are several Tracts of Land and Lo's which are very desirable and well worth looking icho. For instance, I would call your attention to the Lots in the Second Ward. The Lots which I am guist to sell in that Ward are very beautiful, giving a fine view of the entire Giy and also of the Lake. The Second Ward property is certainly very desirable property and those who want to make Investments; I would advise to look into property which is offered for sale. In all the other Winds the property offered is far bollow its value, compared with other cides. There never was a time to invest money to so guad advantage as now. In 12 months from now property in and around Milwanles will be worth double its present value, for by the time we shall have Five Railroads running into the City, also we expect to have one connecting with a Ferry across the Lake. Our city will and must with all the advantages she has have in Ten Years Soventy-Five Thousand inhabitants.

I also would call your attention to toward Tracts of Land. sand inhabitants.

I also would call your attention to neveral Tracts of Land adjacent to the city, and also to several Farms within 4 or 5 miles of the city. The Terms of this Sale will be about one-third down, balance in 1, 2 and 3 years. Sale will commence at 10 o'clock.

BROTHER JONATHAN

COOK STOVE, I have sold the B. J. for the past three years. It has been thoroughly tested by thousands who will testify that it is the most templete Cook Stove that can be. I have four sizes of B. J. There is a summer attachment to the stove which will make half difference less of the amount of fuel used in the Summer scalon and does away with all unnecessary beat which other stoves make that have not the attachment. The oven is much larger than any other stave of the same size familiare. I warmant the stove to give complete satisfaction, if not, to be returned and money refunded. I will refer you to bundreds of the citizens of Milwaukee that are using the Stove.

A PERMANENT CURE OF A DISEASED LIVER, OF MANN YEARS DURATION.

Copy of a Letter from Mr. Genetic Chemist, Yeovil, to Professor Holluran.

Dear Sir.—In this district your Pills command a more extensive sale than any other proprietary medicine before the public. As a proof of their efficacy in Liver and Billious Complaints I may mention the following sees. A lady of this bown with whom I am personally acquainted, for years was a cover studiers from disease of the Liver and eigostro organs; her medicalantendam assured her that he could do nothing to relieve her sufferings, and it was not likely she could survive many months. This announcement, naturally caused great slarm among her friends and relations, and they induced her to make a trial of your Pills, which so improved the general health that she was induced to continue them until she received a perfect cure. This is treview months are make a trial of your Pills, which so improve the greatest health that she was induced to continue them until she received a perfect cure. This is treview months ago, and she has not experienced any amplement of particles. Turners Science and Francisco Condigation of the means of saving be rife.
